PROFILE

MCA graduate in Data Science & Big Data Analytics with a strong foundation in Python, SQL, Power BI, and Excel. Skilled in data analysis, visualization, and problem-solving through academic and analytical projects. Eager to begin a career as a Data Analyst or Data Scientist and contribute to data-driven business decisions while continuously developing technical skills.

ACADEMIC PROJECTS

MoodMate - AI Mental Wellness Assistant

Final Year MCA Project

- Developed an AI-powered mental wellness assistant using Llama 3 integrated through Ollama, enabling context-aware conversations with persistent memory for personalized user interactions.
- Built a responsive Flask web application with local AI inference, providing intelligent chatbot functionality while ensuring user privacy without relying on external AI APIs.

Inventory Management System

(MCA YEAR 1 Academic Project) | 2024-2025

- Built a full-stack web application using PHP, MySQL, and Bootstrap to manage stock, sales, and expired products.
- Added real-time order notification integration by extending the system with a Guest Order feature.

Library Attendance Management System

(BCA Academic Project) | 2021-2024

- Developed a QR code-based library attendance system to digitally record student entry and exit timings.
- Implemented automatic entry and exit logging using dual QR scans with backend integration in PHP and MySQL.

EDUCATION

Master of Computer Applications (MCA-DS&BDA) 2024 - 2026
Yenepoya University
CGPA: 8.0 / 10.0

Bachelor of Computer Applications 2021 - 2024
Dharwad University
CGPA: 7.9 / 10.0
